

# DIMENSIONAL WHIMSY

## Block# 6

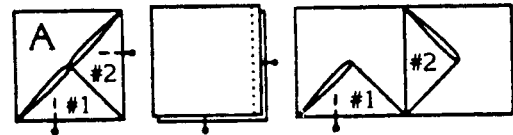

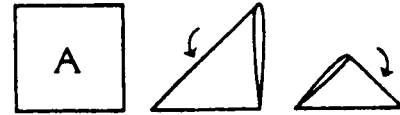

A. Small Floral:  
16 - 3-1/2" Squares

B. Blue Fabric:  
16 - 3-1/2" Squares

### CONSTRUCTION:

1. This block consists of four dimensional pinwheel squares --- two have floral backgrounds with blue folded triangles, and two have blue backgrounds with floral triangles. Start by making one with a floral background. First, fold four blue squares in half diagonally with wrong sides together and press. Fold into smaller triangles and press again. Place one folded triangle on a floral square with raw edges of triangle lined up with one side of floral square (see diagram) and pin or baste into place. Place a second triangle on square next to the first, with folded squares touching, as illustrated. Pin or baste this one into place. Place another background square over the square with triangles, and stitch along the edge as shown. It is now a half-block. Repeat to make the other half-block. Place the two half-blocks right sides together. The four triangles should come to a point in the center. Sew the two half-blocks into one finished square and press. Make another identical block. Now reverse the floral and blue to make the two other squares.

To Make Folded Triangles

2. Arrange four blocks as in diagram. Sew into rows, then sew the two rows together into a 12-1/2" block.
